

OBJECTIVE

Detail-oriented MERN Stack Full Stack Developer with practical experience in designing and developing scalable, responsive web applications using React, Node.js, Express, and MongoDB. Strong focus on clean code, performance optimization, and user-centric design. Eager to contribute technical skills to real-world projects while continuously enhancing problem-solving abilities and learning emerging technologies.

EDUCATION

| | |
|--|-----------------------------|
| Bachelor of Technology (CSE) , Maulana Abul Kalam Azad University of Technology | 2022 — June 2026 (Pursuing) |
| CGPA: 7.0 | |
| Higher Secondary (12th) , Bihar School Examination Board | 2021 |
| Score: 74% | |
| Secondary (10th) , Bihar School Examination Board | 2019 |
| Score: 79.8% | |

SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, REST APIs
Database: MongoDB, Mongoose
Tools: Git, GitHub, Vercel, Postman, VS Code
Languages: C, python, JavaScript

TECHNICAL EXPERIENCE

| | |
|--|--------------------------------|
| E-commerce Website <i>Personal Project</i> | September 2025 - November 2025 |
| <ul style="list-style-type: none">Built a full-featured e-commerce web application using the MERN stack.Implemented product listing, filtering, cart functionality, and user authentication.Designed responsive UI using React and Tailwind CSS.Developed REST APIs with Node.js and Express for backend operations.Integrated MongoDB for managing users, products, and orders. | |
| Code Converter Chatbot <i>Group Project</i> | Jun 2025 - August 2025 |
| <ul style="list-style-type: none">Developed a chatbot-based code converter that converts code between multiple programming languages.Built frontend using React and handled API requests efficiently.Implemented backend using Node.js and Express for processing conversion requests.Focused on error handling, input validation, and clean response formatting. | |
| Zerodha Clone (Full Stack) <i>Personal Project</i> | currently working |
| <ul style="list-style-type: none">Developed a full stack Zerodha trading platform clone using MERN stack.Built secure REST APIs using Node.js and Express.Implemented user authentication and authorization.Integrated MongoDB for managing users, holdings, and transactions.Designed responsive frontend using React with reusable components. | |

ACTIVITIES

- Participated in coding competitions and technical workshops related to web development.
- Presented major academic and personal web development projects during college events.
- Active member of the college coding and technical club.
- Completed multiple online courses focused on MERN stack and full stack web development.
